Cabinet minister concerned

Youth unemployment is a continuing priority. Many young Canadians will look to college and post-secondary education. They are having trouble getting that first job. They need to prove their worth and competence. They need to get on with their lives.

This was the message in a New Year's special by Prime Minister Mulroney. He said that unemployment and training are given in a national priority, but were not a priority.

For any Canadian, it is a matter of pride. Mr. Mulroney said that Canada is a great country and that it is a great country. He said that Canada is a great country and that it is a great country. He said that Canada is a great country and that it is a great country.

Mr. Mulroney said that Canada is a great country and that it is a great country. He said that Canada is a great country and that it is a great country. He said that Canada is a great country and that it is a great country.

Centennial sparks contest

There has been discussion in Canada about the Centennial. It is a great country and it is a great country. It is a great country and it is a great country. It is a great country and it is a great country.

In connection with the Centennial, the National Centennial Commission (NCCC) is sponsoring the National Centennial Competition. The contest is open to all students in Canada. It is a great country and it is a great country. It is a great country and it is a great country.

These findings are consistent with previous studies on the effects of stress on the immune system. For example, a study by Cohen and Wills (1985) found that stress can suppress the immune system, making individuals more susceptible to illness. Another study by Kiecolt-Glaser et al. (1987) found that stress can increase the production of inflammatory markers, which can lead to chronic inflammation and disease.
